Security Bags for Medical Facilities

it's all in the bag!

A. Rifkin Co. Medical Products Catalog

REUSABLE FABRIC SECURITY BAGS FOR HEALTHCARE PROFESSIONALS

On a daily basis, millions of medical records, tissue specimens, confidential documents and human resource files circulate throughout major medical facilities, clinics and doctors' offices. The unauthorized disclosure of any information contained in these documents could have significant negative consequences. The threat of substantial HIPAA fines, high-profile litigation and loss of public confidence are all possible outcomes of not protecting the privacy of confidential information.

The products in this catalog have been developed to dramatically improve security and efficiency throughout all departments of a medical facility, clinic, lab or offices of healthcare professionals. As the world-leading manufacturer of reusable locking and Keyless Security™ bags, our products are trusted by over 30,000 customers including the federal government, Fortune 500 companies and most of the world's largest financial institutions as well as medical facilities.

MEDICAL INFORMATION SECURITY BAGS

Rifkin's reusable fabric bags are one of the best ways to comply with all HIPAA regulations regarding the secure transport of confidential medical records, billing documents and patient information. Every time a patient's medical information is moved, privacy standards require that the information be protected. This includes transfer of patient records from a nursing station to other departments in a hospital such as physical therapy, X-ray, or the lab. Rifkin security bags are also ideal when transferring a patient to a specialized clinic or rehabilitation facility.

- Multiple Locking and Keyless Security™ bag styles
- Custom personalization including embroidery and screen printing
- Wide variety of fabric and color choices

SPECIMEN SECURITY BAGS

Rifkin locking specimen bags are custom manufactured to accommodate pick-up and drop-off of lab specimens after a doctor's office has closed for the day.

- Multiple styles of high-security locking bags
- Various keying options to best suit your application

ARCOLOCK-7® SECURITY Keyed Locking Bags

Made exclusively for A. Rifkin Co., our seven-pin tumbler lock mechanism makes our secure transport bags the most reliable on the market when high security is required. All Arcolock-7® bags, except LCX bags, come standard with two keys that are factory sealed in a polyethylene envelope to provide security for they key system until the bags are used. Our lock safety feature prevents the key from being removed while the lock is in the open position, making it impossible to accidentally lock your key inside the bag. Widely used by banks and government agencies, Arcolock-7® bags feature four available keying options*, or an LCX keyless option, with up to 3,000 independent key changes with no interchanges, and up to 2,000 master-key combinations in each series.

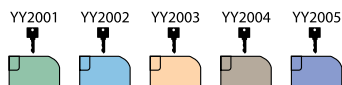

*all bags are keyed differently unless otherwise specified.

U.S. Patent No.
3759073 and 5065602

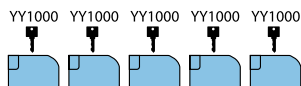

Keyed Differently (included in Sac price)

Keyed differently, each bag has its own key, different from all others, with no interchanges.

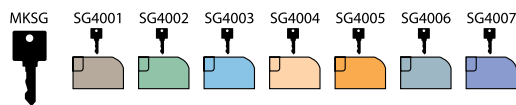

Keyed Alike (included in Sac price)

When Arcolock-7's are keyed alike, a single key pattern ("bitting") allows all key holders to open every bag in the system.

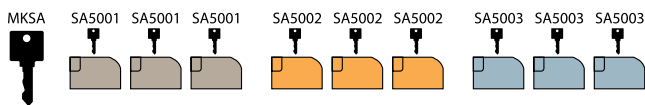

Master-Keyed (Additional cost per Sac)

In master-keyed systems, each bag has its own key which is independent of other locks in the system. However, a single key opens all locks in that system.

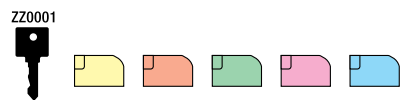

Keyed Alike Sets with Master Key (Additional cost per Sac)

Keyed alike sets are also available with a master key which will open each bag in all sets.

LCX Key System (Additional cost per Sac)

For applications where individual bag users do not receive keys. In "Keyless" LCX systems, bags are issued unlocked with a leather insert strip secured around the plunger head to prevent accidental locking. Once filled, the user simply removes the strip, closes the zipper and depresses the plunger. The bag is then securely locked. This enables a single authorized keyholder to open all bags in the system without any other bag users requiring a key. It also allows any bag to be sent to any user, simplifying the redistribution process. Two keys to operate all locks in the system are provided for each new LCX bag series.

Emergency Key Replacement Service (Additional cost per key)

Replacement keys are forwarded within 48 hours in cases of emergency. Large quantity key orders may take longer. (Please specify key number which is stamped on key and base of lock.)

KEYLESS SECURITY™ Patented Rifkin Exclusive!

Rifkin Keyless Security™ bags use uniquely numbered, single-use seals and a patented zipper chamber to provide documented evidence that the contents of the bag remain secure during storage and transport. All bags equipped with Rifkin's Keyless Security™ option provide clear evidence if the bag's contents have been compromised. The very presence of the Keyless Security™ chamber keeps most would-be "snoops" looking for an easier target.

To Secure The Bag

- Insert all materials to be transported into the Keyless Security™ Bag.
- Fill in date, delivery location, and seal number on provided routing card. Insert card into the clear window which is accessible only through the interior of the pouch.
- Pull the zipper completely closed. Hold chamber lid at a 45° angle, push back and down until it snaps into place.
- To lock, insert seal's twin arrowheads into the two small rectangular openings and push until they click into place.

U.S. Patent No. 6533335

To Open The Bag

- Verify that the seal number matches the documented number on the routing card. Confirm the seal has not been broken or tampered with during transport.
- To open, utilizing the indent under the red seal, lift seal until it breaks. Then using the second indentation, lift up the chamber lid, unzip bag. Make sure all seal pieces are removed. Remove contents and reuse pouch.

U.S. Patent No. 6533335

For all bags with "cc", refer to page 11 and choose a color code.

PROTECT YOUR LAB SPECIMENS

- Biohazard logo as required by OSHA is standard
- Protected by Arcolock-7®
- Nylotop® 2000 Sac is lined with vinyl for easy cleaning

Designed for the safe transport of specimens from clinics and doctors' offices to laboratories for testing. Many laboratory services send out couriers daily to pick up specimens. Frequently, the couriers must make their stops in the early evening, after the clinics are closed. Because of this, specimens must be packaged for pickup in a container that provides security against possible theft or tampering.

TWO METHODS FOR USE

1. Bags that are keyed alike allow the lab courier to open all bags. Physician packs specimens into bag, locks it and places bag on the outside of the door.
2. Bags are master-keyed and padlocks are keyed alike. The courier only has the key to the padlocks and removes the locked bag to deliver to the lab, replacing it with another locked bag. (Bags which hook over door with U-Clamp cannot be used this way.)

Locking Specimen Security Bags

SPECIMEN BAG WITH WEBBING STRAP

CATALOG ID	H x L (in.)	Material
B00053-H10-83cc	10 x 14	Nylotop® 2000

GPS
Tracking

Advanced Satellite Tracking for Transplant Teams

ArcoTrack™ offers medical professionals the most advanced and accurate method for locating and tracking transplant teams, transplant recipients, organ donations and other critical deliveries as they are in transit.

The ArcoTrack™ GPRS is a completely self-contained Satellite Tracking device that is small enough to fit in the palm of your hand. When placed in bags, vehicles, packages or carried by an individual, the ArcoTrack™ GPRS provides detailed, real-time position reports and documentation of routes traveled.

ArcoTrack™ mapping and tracking features can be accessed from any web-enabled computer or cell phone.

TRACK CRITICAL DELIVERIES IN TRANSIT

Replace "cc" with
Color Code: 08 Blue or 46 White

RESIDUE-FREE

To assure the security of our seals,
we do not duplicate numbers.

Tamper-Evident Labels

Keyed locks can protect drawers and cabinets ... but sometimes it is necessary to monitor whether protected items (drug cabinets, specimen coolers) have been accessed.

Tamper-evident labels will quickly show if entry has occurred.

Ideal for use on cabinets, desk drawers, laptops, or most other solid surfaces.

- ArcoID™ self-adhesive labels are easy to apply, easy to remove and leave no residue.
- A "void/open" message will appear if any part of the label is lifted. The hidden message triggers when anyone attempts to peel or remove the label, even if they attempt to compromise the adhesive with a heat source or Freon®.

We recommend storing labels in a box or drawer, away from extreme heat, cold, sun, or light. Labels have been tested for more than 1 year on metal, plastic, and glass. For best results on textured surfaces, allow 5-10 minutes for label to bond. Some textured surfaces are not compatible. We would be happy to provide a sample for you to test.

RESIDUE-FREE ARCO ID™

CATALOG ID	H x L (in.)	Color
S93310-08	1 x 3	Blue
Sold in rolls of 250 only.		

For all bags with "cc", refer to page 11 and choose a color code.

Keyless Security™ Technology

HIPAA-Compliant Keyless Security™ Pouch

The perfect solution for securely transporting medical records, x-rays, lab reports and patient property... room to room, department to department, building to building. Once the bag is sealed, it cannot be opened without leaving a clear record that the contents have been compromised.

- Five times the capacity of standard transport envelopes
- Reuse over a thousand times — durable, water-resistant fabric construction
- Double-sided 11" x 4.25" routing card included in inside-access-only window. (Mini window for 3" x 5" card)

Multi-purpose
HIPAA compliant
security bag

SECUR-A-FILE™ ~ File cabinet security

Designed to fit inside legal-size file cabinets, this Keyless Security™ bag enables medical records to maintain privacy standards even when a locked file cabinet is opened. By placing paperwork into the Secur-a-File™ and inserting the numbered, one-time-use seal into the chamber, these documents are now secure until seal is broken, revealing at-a-glance proof of tampering.

U.S. Patent No. 6039473

SECUR-A-FILE™

S92803-00	9.5 x 14 x 4.5	Black

Bulk Transport Bags with Keyless Security™

For transporting records in bulk or multiple samples, our courier bags and rolling bags are the perfect solution. Both are equipped with tamper-evident Keyless Security™ closures, but also offer handles or wheels to aid in transporting stacks of paperwork or lab samples. These styles include an inside-access security window to hold 3" x 5" card.

Rolling bag features:

- can carry up to 50 lbs of paperwork or supplies
- collapses for easy storage when not in use

Material Color Guide

Replace "cc" with Cordura® Plus, Arco 600™, Arcoduck™ II or Nylotop® 2000 color code.

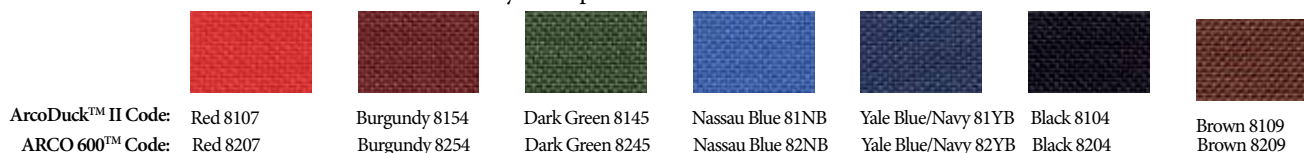

Sample product number B01652-D10-83cc would be B01652-D10-83YB (83YB represents Nylotop® 2000 Yale Blue)

CORDURA® PLUS The look and feel of cotton duck with the superior performance of nylon. High abrasion resistance. Urethane coating. May be imprinted or embroidered.

ARCO 600™ Vinyl-coated 600-denier polyester duck. Durable, water-resistant and abrasion-resistant. May be imprinted or embroidered.

ARCODUCK™ II Outer layer of vinyl-coated 600-denier polyester duck bonded to a polyester fabric with a moisture proof inner liner. Adds to the abrasion resistance of ARCO 600™. May be imprinted or embroidered.

NYLOTOP® 2000 A Rifkin fabric development. Layers of 70 denier vinyl-coated Nylon and polyester fabric bonded together with a moisture proof inner liner. Water-resistant. May be imprinted or embroidered.

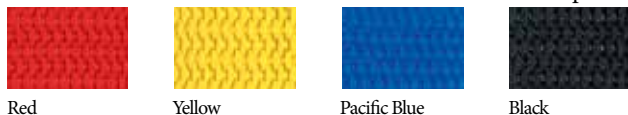

LEATHERETTE Vinyl coating applied to fabric base. Easily cleaned with soap and water. Silk screen imprinting only.

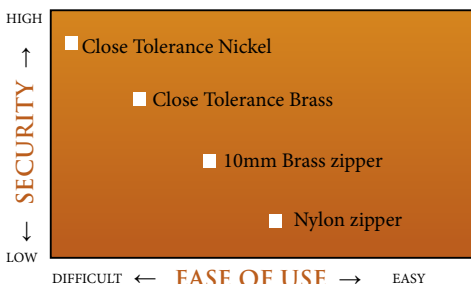

NYLON 200-denier fabric with water-resistant urethane coating. Silk-screen imprinting only.

WEBBING FOR HANDLES If no handle color is specified, Black will be supplied.

Color number indicates specific material and color combination. Note: It is not always possible to duplicate fabric shades exactly. Actual colors may vary slightly. Fabric sample swatches available upon request. If you do not see the color or fabric which matches your system requirements, please contact us to discuss your needs.

Zippers

Based on your security requirement several zipper options are available for custom manufactured bags. See chart to the left and call Customer Service for more information.

TERMS

Net 10 Days, F.O.B. Shipping Point

POLICIES

Rifkin Bag Products

To qualify for quantity pricing, bags must be identical in material and color and they must have identical imprinting or embroidery. Styles may not be combined for quantity pricing. For multiple colors, color assortment charges may apply. Every effort will be made to ship the exact quantity of a printed order. Standard industry practice for printed products, however, provides a manufacturing allowance of $\pm 3\%$ of the quantity ordered. It is our policy to ship and invoice all finished products to the customer.

Rifkin Stock Bags

We maintain an inventory of only those specific styles, sizes, fabrics and colors listed. All other bags are custom-manufactured to order and may not be returned. When Stock Bags are returned, a 15% re-stocking charge applies.

Rifkin Non-Bag Products

You must be completely satisfied with the items purchased, or we will exchange the item, refund the purchase price or credit your account, as you wish. This policy applies provided the merchandise is returned within 30 days of receipt in re-sale condition. Any merchandise made to special order, and those items printed or engraved to your specifications may not be returned or exchanged.

Return Policy

If you need to return an item, return authorization is required. Please contact our representative in your area or our Customer Service Department at 800-458-7300 for assistance. Return merchandise should be shipped to: A. Rifkin Co. 1400 Sans Souci Parkway Wilkes-Barre, PA 18706 or to the location specified by our Customer Service representative when you receive your Return Authorization.

All prices and specifications in this catalog are subject to change without notice. All orders are subject to the approval of Rifkin and are not binding until accepted by Rifkin. Rifkin reserves the right to refuse any order at any time. All orders are subject to availability of materials and component parts and Rifkin shall not be liable for inability to ship any order(s) due to material or parts shortages.

Our Guarantee

We are dedicated to providing you, our customers, with high quality products. We guarantee that the materials and workmanship used for each of our products will be of excellent quality and that they will serve to the satisfaction of our customers. In 1892, when our family established A. Rifkin Company, they adopted a sound philosophy: To provide good service and a quality product at a fair price. These precepts have continued as our guidelines through the years, and remain so today. We appreciate the confidence in us expressed by the more than 30,000 banks, industrial concerns and other businesses who use our specialized custom-made products. Our company is dedicated to serving their needs... and we welcome every opportunity to do so.
